

Lobby Dustpan w/ Broom

Series 6250

REMCO

Handle Grips

Grips provide enhanced handling and the hanging holes allow the tools to be hung from any hook-based storage rack

FDA-Compliant Materials

The lobby dustpan and broom set are made with FDA-approved materials

Easy Broom Storage

Quickly store the accompanying broom in the fitted capture located on the dustpan lid

Detachable Handles

Handles can be removed from both dustpan and broom to allow for simple tool cleaning

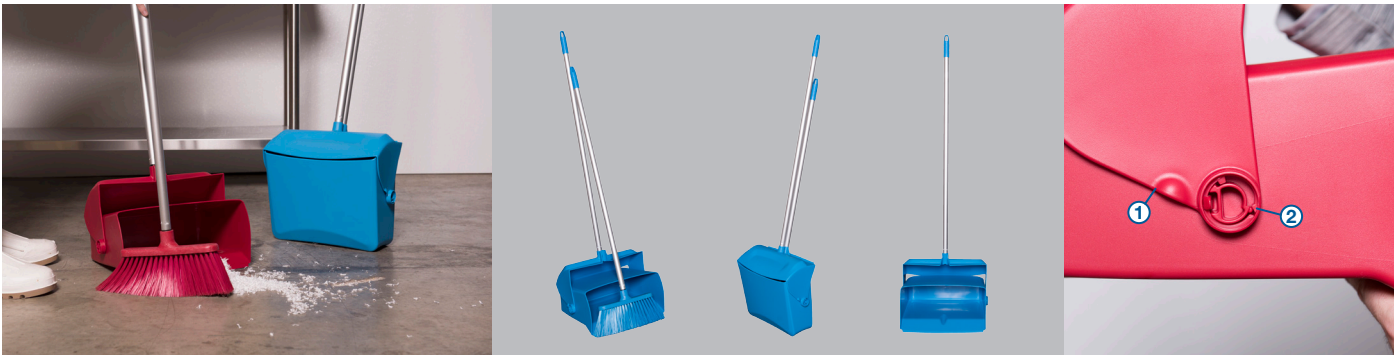

Swivel Hinge

Dustpan swings open and closed for easy collection and debris storage

Locking Lid

High-tension hinge lock holds pan open for easy usage and is activated by pushing the dustpan handle back until the lock clicks into place

Made especially for food processing facilities, this dustpan has no hard angles that could trap food residue or bacteria, and it can be easily disassembled and reassembled for regular washing and sanitizing. The large, 7" by 14" bin allows for big and small cleanup jobs while the tall, 37" handle prevents back pain that stems from leaning over shorter dustpans.

Lobby Dustpan w/ Broom
6250

This lobby dustpan was created with food processors and food service workers in mind. Made with FDA-approved materials, this product was created to meet the needs of customers. This product is durable and made of the highest-quality materials here in the USA.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
